## EXPERIENCE

### GW Coding Bootcamp, Arlington, VA — Student

October 2017 - January 2018

Computer Science applied to JavaScript: Design Patterns and Algorithms

Browser Based Technologies: HTML, CSS, JavaScript, jQuery, Responsive Design, Bootstrap, Handlebars, Local Storage, React.js

Deployment: Heroku, Git

Databases: MySQL, MongoDB

Node.js (Server Side Development): Express, Security and Session Storage, User Authentication, MERN Stack (MongoDB, Express.js, React.js, Node.js)

### Point Performance Therapy, Bethesda, MD — Concierge Department Supervisor

2015 - 2017

Ensured all VIP patients were scheduled with the specific therapist that would better suit them.

Maintain the bookkeeping of the department through Quickbooks.

Perform clerical duties, such as taking inventory, ordering supplies, scheduling patients, answering telephones, taking messages, informing patients of office policies, scanning and filling.

### Metropolitan Med Trauma Group, Rockville, MD — Physical Therapy Tech and Receptionist

2012 - 2015

Observe patients during treatment on their responses and progress, and report to physical therapist.

Instruct, motivate, safeguard and assist patients practicing exercises and functional activities, under direction of physical therapist.

Confer with physical therapist to discuss and evaluate patient information for planning, modifying, and coordinating treatment.

Call patients insurance to get authorization for treatment.

## PROJECTS

### Project Name — Detail

**Weekend Traveler** This is an app that makes suggestions for weekend trips around the DMV area based on distance and indoor or outdoor preferences. This was created as our first group project for our class.

**Mind Reader** An application that finds the gifts for users. using Walmart and Amazon Api. This was the second class group project.

**cashMoney** A finance App built using REACT. This application has the capabilities a typical accountant might need.
